

STRe Solutions delivers the best talent efficiently and effectively for corporate executives and business professionals by leveraging the expertise of experienced operating executives.

Client Differentiators

In today's rapidly changing business environment you need partners to help shorten your hiring cycle and increase your hiring success for permanent, contract and executive talent. Your hiring process must be replicable, provide a high level of customer service for your hiring managers, and deliver consistent, quantifiable results.

When you partner with STRe Solutions, we find you the right people at the right time, producing the highest level of results each and every time. We shift the burden of identifying and assessing candidates from the hiring manager to our own strategic account managers. And we do this for the same price that you would pay for a typical permanent or contract hire. STRe Solutions is committed to providing you with the highest value for your investment.

The STRe Solutions differentiators guarantee you a hiring process that succeeds.

- Using our unique process, we partner with clients to fully understand the job requirements and qualifications.

- We thoroughly assess candidates before you see them. We typically review dozens of candidates and zero in on those that fit your profile.
- Our Strategic Account Managers have sat in your seat and are experienced operating executives. After reviewing potential candidates, they are expert at qualifying the 2 or 3 candidates that fit your job requirements and corporate culture.
- When presenting candidates we provide you with more than just a resume. We include a thorough assessment of the candidates for both contingent and retained searches. Using this approach saves you valuable time in the hiring process.
